

Street Light

Specifications

Model	JMS-0818-01 / 02
LED light Source	30W (White/Warm White)
Brightness	750 lm/ 540 lm
Color Temperature	5000K / 3000K
Solar Cell Panel	80Wp
Battery	12V/50Ah*2
Controller	10A
Lighting	8hrs/day, 3 working days in rainy
Working Area	14m ² , light angle:60°

Features

LED	High Power LED without patent issue ISO9001/QS9000/TS16949 SGS · NO Lead	
Solar Charge Controller	Certificates	European Standards (CE)/DIN EN ISO9001:2000 /DIN EN ISO14001
	Features	PWM shunt battery charging State of charge (SOC) battery regulation Automatic load reconnection Automatic selection of voltage (12 V / 24 V) Lighting control options during nighttime
	Protective Functions	Over voltage and under voltage protection Overload protection at load output Excess temperature protection Open circuit-proof during operation without battery or consumer Reverse current protection at night
